SawGear Touch®

Introducing SawGear Touch®, a feature rich touch screen controlled automated stop that easily attaches to your existing saw. SawGear Touch® offers repeatable accuracy of +/- .008” and eliminates the need to rely on tape measures and manual fences. It includes Crown+MiterPro Software, Framing Software, and more.

TigerStop®

fast and accurate...every time

Touch Screen
Automation for Any Sized Shop

Add a SawGear Touch® on to your new or existing machine tool. Type in your desired measurement, place your material, and press start. Say goodbye to your tape measure. It's that simple.

Zero Set Up Time
Do away with "measure twice, cut once". Stop relying on tape measures, manual stop blocks, and clamps in your manufacturing process.

Easy Upgrade Path
Simply swap out your old SawGear® power head with the NEW SawGear Touch® power head to access its amazing features and functionality!

100% Accuracy
The parts you cut today will be as accurate as the parts you cut next week, next month, and next year.

No More Rework
Quality control starts with SawGear Touch® by TigerStop®.

Increased Productivity
Keep your operators in the money making zone, cycling your saw, not walking back and forth measuring and marking material, double checking measurements, or worse, performing rework.

Easy to Operate
Any operator can be trained to use a SawGear Touch® to position material in under 10 minutes. A novice can learn to hang crown molding, trim, or baseboard, in less than 30 minutes!

Improved Yields
Raw material costs are rising. Using a SawGear Touch® maximizes yields and adds profits to your bottom line.

CONFIGURE A SAWGEAR TOUCH® IN **3 EASY STEPS.**

Build your very own by visiting:
www.configurator.tigerstop.com

Choose Your Tools.

SawGear Touch® easily adapts to most cold saws, chop saws, miter saws, upcut saws, and more!
